

SNEHA MOHANAN

Full-Stack Developer

Palakkad, Kerala, India | snehacp.com | linkedin.com/in/sneha-mohan-367b8b24b | github.com/Snehacp123

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 2+ years of hands-on experience designing and delivering enterprise-grade, AI-powered microservice applications. Sole architect of FindITQ, an enterprise multi-sided marketplace connecting job seekers, employers, vendors, startups, and investors across 10 independent microservices. Pioneered the use of Claude Code for AI-assisted rapid development, leveraging open-source models to accelerate complex system delivery. AWS Certified Developer – Associate, Oracle Certified Developer, and Oracle Generative AI Professional.

TECHNICAL SKILLS

Languages & Frameworks: Golang · Python · Django · Gin · Next.js · TypeScript · JavaScript · FastAPI · PHP · WordPress

AI & Automation: OpenAI · Claude Code · AI Agents · n8n

Databases & Caching: MySQL · PostgreSQL · SQLite

Cloud & DevOps: AWS (EC2, S3) · Oracle Cloud · Docker · Linux

APIs & Integration: REST APIs · Clerk Auth

Tools & Practices: Git · CI/CD · Agile/Scrum · Microservices Architecture · System Design

WORK EXPERIENCE

Full-Stack Developer

Jun 2025 – Present

TechBrein · Kozhikode, Kerala

- Sole architect and developer of FindITQ, an enterprise multi-sided marketplace platform built on microservices architecture, connecting job seekers, employers, vendors, startups, and investors in a unified ecosystem.
- Designed and implemented 9 independent services (8 Go/Gin APIs + 1 Python service) with a Next.js frontend, following a strict Database-Per-Service pattern with PostgreSQL, Clerk OAuth authentication, and Docker containerization.
- Successfully completed 2 major phases and deployed to both UAT and production environments; actively used internally by the TechBrein recruitment team with zero critical issues.
- Mentored a junior developer and delegated tasks across concurrent engagements, enhancing team delivery velocity.
- Pioneered use of Claude Code with open-source models to accelerate development cycles, enabling rapid delivery of complex systems.

Full-Stack Developer

Feb 2024 – May 2025

Midnay Tech Private Limited · Kozhikode, Kerala

- Developed custom WooCommerce and WordPress solutions, including One Page Checkout and Smart Coupon plugins.
- Created web applications and integrated third-party APIs and services such as Mailer Cloud.
- Worked on Headless WordPress applications integrated with Next.js for modern frontend development.
- Collaborated with the team to improve website functionality, user experience, and business requirements.

Software Engineer Trainee

Sep 2023 – Dec 2023

Alokin Software Pvt. Ltd. · Thiruvananthapuram, Kerala

- Participated in an intensive software engineering training program focused on Python and JavaScript.
- Acquired hands-on experience with software development methodologies and best practices.

- Collaborated on projects with a diverse team, demonstrating adaptability and effective teamwork.

Python Developer Intern

Jan 2023 – Aug 2023

Luminar Technolab Solutions · Ernakulam, Kerala

- Developed web applications end-to-end using Python and Django, enhancing user experience and functionality.
- Implemented and maintained backend functionalities, streamlining database design and optimizing API integration.

FLAGSHIP PROJECT

FindITQ — Full-Stack Talent & Investment Ecosystem | *Microservice Architecture* | *finditq.com*

- Designed and single-handedly built a professional networking platform connecting talent, employers, startups, investors, and vendors across 10 independent microservices using Golang Gin (x8), FastAPI (AI chatbot), and Next.js 15.
- Implemented an AI-powered chatbot with tool calling and context-aware responses using OpenRouter LLM API for intelligent job discovery, candidate matching, and workflow automation.
- Infrastructure stack: PostgreSQL (Database Per Service — 8 isolated DBs), AWS S3 (resume & photo storage), WebSocket (real-time notifications), Docker (container orchestration), Clerk (JWKS-based JWT auth).
- Deployed across UAT, staging, and production environments — live at finditq.com with no critical post-launch issues.

OTHER PROJECTS

HRMS & Platform Services | *CRM/PMS Microservice Contribution* | *pms.techbrein.com*

- Contributed to an enterprise CRM/PMS platform by building the HRMS service with employee check-in/check-out features, search service, and role-based access control across the microservice architecture.

Greater Wyndham Realtors | *Real Estate Platform* | *Backend · Frontend*

- Built and integrated VaultRE API for real estate listings and property data, handling full backend and frontend implementation using PHP and WordPress.

Headless WordPress Migration | *Performance Optimization* | *Frontend · CMS*

- Migrated a production WordPress site to a headless architecture using Next.js, developed custom WordPress plugins for API exposure, significantly improving performance and page load speeds.

CERTIFICATIONS

- **AWS Certified Developer – Associate** · Amazon Web Services · 2025–2028
- **Oracle Cloud Infrastructure 2025 Certified Developer Professional** · Oracle · 2025–2027
- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional** · Oracle · 2025–2027
- **Python Django Full Stack Development (Web Applications & RESTful APIs)** · NCTT
- **Python Web Development Expert** · National Council for Technology and Training (NCTT)

EDUCATION

Master of Computer Application (MCA)

Jan 2022

Dr. John Mathai Calicut University Centre, Thrissur

Bachelor of Computer Application (BCA)

Jan 2020

IHRD College of Applied Science
